

# Soi96 Legal — AI Agent Hierarchy

SOI96 LEGAL · 10 AGENTS · STRICT CHAIN OF COMMAND · APRIL 2026

## LAYER 1 — ATTORNEY + UI CLIENTS

**ATTORNEY**  
Licensed Lawyer · Only human in the loop

**WEB FRONTEND**  
Next.js · browser

**MOBILE APP**  
Expo · iOS / Android

UI CLIENTS  
same entry point

**#1 PROMPT ANALYST**  
Executive Secretary  
ONLY attorney interface · classify first if doc

## LAYER 3 — CASE ANALYSIS

**#3 DOCUMENT CLASSIFIER**  
type · matter ref · practice area · flags

**#4 CASE / SITUATION ANALYST**  
Senior Associate  
pre-classified input · coordinates all specialists

**COMMS AGENT**  
Receptionist · Parallel Track  
email · LINE · calendar · proactive alerts

## LAYER 4 — SPECIALIST AGENTS

**CLIENT MANAGER**  
full client profile

**#7 RAG AGENT**  
Law Library  
forms + statutes · precise queries only

**#8 BILLING AGENT**  
Accounts  
deterministic rules · retainers · AR

**JUDICIAL INTELLIGENCE**  
judges · court support · career profiles

**#10 ADVERSARY INTELLIGENCE**  
counsel · firms · officials (BOI)

## DATA LAYER — DETERMINISTIC SERVICES (NOT AGENTS)

**BILLING DATA**  
retainers · trust · invoices · AR  
by Billing Agent · CRUD exists

**FORM CALIBRATION**  
RAG sub-pipeline worker  
PDF download · AcroForm + coord mapping · BUILT

**WORKFLOWS SERVICE**  
WorkflowTemplate · MatterWorkflow  
step tracking · deadlines · overdue query · BUILT

**INTELLIGENCE STORE**  
judge · counsel · official profiles  
populated at matter close · TBD

## STRICT CALLER RULES

Analyst → Doc Classifier, Case Analyst, Comms Agent | CANNOT → Client Mgr, RAG, Billing, Intel agents directly  
Analyst → Client Mgr, RAG, Billing, Judicial, Adversary + reads Workflows | CANNOT → Prompt Analyst, Comms, Onboarding  
Analyst → data store + Workflows (overdue step monitoring + proactive alerts) | CANNOT → any agent  
No agent skips a level · No sideways calls · Classification before routing · Routing before research · Responses travel back up the same chain

### NODE STATUS

- Built
- Pending build
- Data layer (no AI)

### EDGE TYPES

- Direct call
- Return / response
- Handoff / peer
- Sub-pipeline / data read

### COLOUR KEY

- Prompt Analyst
- Doc Classifier
- Comms / parallel
- Case Analyst
- Client Manager
- RAG Agent
- Judicial Intel
- Adversary Intel

### WORKFLOW MANAGEMENT

**Instantiate** Case Analyst → Client Manager at matter open  
**monitor** Comms Agent watches

### SEQUENCING RULE

- Prompt Analyst reads request
- Doc Classifier if doc present

### RAG AGENT — TWO JOBS

**forms** Thai govt portals — TM, WP, BOI, DBD, Revenue, Land forms

### BUILD STATE

**BUILT** Prompt Analyst, Case Analyst, Doc Classifier, RAG Agent, Form Calibration, Workflows

overdue steps → proactive alerts

**context** Case Analyst reads  
workflow state when building  
briefs

**data** WorkflowsService is  
deterministic — not an AI agent

**3** PA routes with full context

**4** Case Analyst delegates  
precisely

**5** RAG answers a scoped query

**laws** Statutes, circulars,  
regulations → **law\_corpus**

**calibrate** FormCalibrationAgent  
maps fields after PDF download

Service

**TBD** Onboarding, Client Manager,  
Comms, Billing, Judicial, Adversary
